## The Way of the Master - Evangelism Training -led by Jack Lee

Based on the award-winning TV series "The Way of the Master," this eight-session course will teach you to overcome your fears by using a proven, powerfully effective way to make the gospel make sense to those you care about. Learn to bypass the intellect (the place of argument) and speak directly to the conscience (the place of knowledge of right and wrong) - the way Jesus did.

## When God's People Pray -led by Lou Jean Peace

Prayer can change lives and circumstances like nothing else can. What are the keys that unlock its power, that turn prayer from a mere activity into a vital link with God and all his resources? In this DVD, Jim Cymbal a, pastor of the Brooklyn Tabernacle, shows you and your small group truths about prayer that God has used to turn his own church from a tiny, struggling inner-city congregation into a vital, thriving community of believers who pray with passion, focus, and faith.

## Parental Guidance Required -led by Mike and Sarah Sowers

Of all the assignments God will give you during your time on earth, none may be more sacred than the task of raising your children. Parental Guidance Required is designed to give you the counsel you need to help prepare your children for the future. Intended for use in personal study or in small groups, you will learn to ask the important questions such as: Am I developing a quality relationship with my children? Am I striving to control the influence that friends will have in my child's life? Am I nurturing a healthy eternal perspective that will help my child to weather the storms of life?

## Computer Literacy? led by Cliff McRoy

Are you wondering what is happening in your computer when the screen seems frozen and hitting buttons causes no response. What does BIT and Byte have to do with anything? How does the computer store things that I type and where do they go? What's happening inside. How does a program work and what is a program anyway? What is an operating system and what does it do? These are some of the things we will try to answer during our meeting times and maybe some other things about a computer that you want to know. We will not plan to explain how to work with any particular software package (program (Microsoft Office, Windows XP)). This will be geared for those that feel they know nothing about a computer.
